CONTAINS

- 1 Backyard Safari Hornet Blaster
- 6 Flying Foam Hornet Darts.

USING THE HORNET SWARM BLASTER:

Carefully remove your new Backyard Safari Hornet Swarm Blaster from its package and read all the instructions thoroughly before use.

Once free from the packaging, 1.) Check to make sure you have all the required items and 2.) Check for any cracks or damage. Be sure to test the trigger, which is the back leg of the large Hornet handle. All set, GREAT! Decide which of the 6 openings on your Hornet Swarm Blaster you want to use, of course you can use all 6 at once if you want! Next, TAIL first, place the Foam Hornet Darts into your chosen openings on the hive, by pushing gently until you hear a "click." You can do this with 1 Foam Hornet Dart or all 6! Never point the blaster bottom towards yourself or others during inserting the Foam Hornet Darts. Need some help taking aim? Well, you can look through the 2 antenna on the Hornet Swarm Blaster and size up your shot! So, when you're ready, pull back on the Hornet Swarm Blaster's trigger legs and watch the Foam Hornet Darts fly out in all directions! Just like in real life, you don't know where the Hornets will go, each will fly off in a different direction! How cool is that? Don't forget the wings on your Backyard Safari Hornet Swarm Blaster are adjustable, so you can pose the Hornet! Just a few more things; remember, never aim the Hornet Swarm Blaster at another person or animal and don't try to use the Foam Hornet Darts with anything, but the Hornet Swarm Blaster. The Foam Hornet Darts were made especially for the Hornet Swarm Blaster ONLY!!
