

# OK Moto Headz, these photos will help you get started, so let's get to it cuz I wanna ride!! Awesome!

Item: 1201506

Headz can pop off bodies  
**Note:** If arms or legs come off, pop them back into place.

Swap out headz from other riders to create your own.

Clip hands onto handle bars.  
**Note:** Body can be posed in cool positions.

Riders will hang on even when upside down!

Carefully slide ripcord end into wheel gear area.  
**Note:** Make sure flat side of ripcord faces outward.

Ripcord pushed all the way down at the correct angle.

Pull ripcord at this angle.  
**Note:** Hold bike and rider with one hand and pull the ripcord with the other. Push start on the ground for better performance.

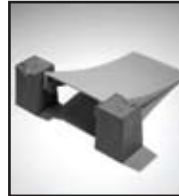

Kick stand clipped into position for stand-up displaying. **Note:** Keep on for *smooth* performance.

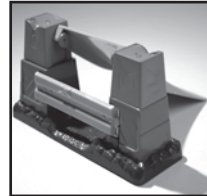

Remove kick stand for *extra* performance.

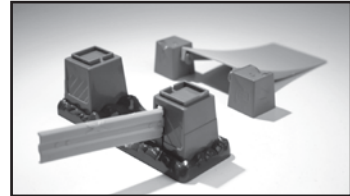

Contents: Crash figure, stop sign, ripcord, bike, ramp, 2 ramp stands, spring loaded barrier gate.

Snap ramp onto ramp stands.

Snap ramp stands on top of barrier for extra jump height.

Try placing barrier at different lengths from ramp for unique crashing.  
**Note:** Gate is spring loaded to swing open and shut.
